

REVIEW HELD IN HONOR OF

SERGEANT OF 19TH INFANTRY

DOUGLAS, Sept. 4.—First Sergeant Charles E. Whitworth, company K, Nineteenth Infantry, was accorded an unusual honor yesterday afternoon when a regimental review was held for him on the occasion of his decoration with the Metal Militaire of France, awarded for gallantry during the battle of the Argonne. The citation was read before the regiment by Colonel Ross L. Bush, commander of the Nineteenth who then pinned the medal upon Sgt. Whitworth's chest. The regiment then passed in review before the Colonel and the Sergeant, who occupied the post of honor at the colonel's left.

The citation sets forth that Whitworth enlisted in the regular army February 5, 1915, but transferred to the 362nd Infantry, 91st Division, with which he crossed to France July 6, 1918. During the Argonne offensive while Whitworth was duty sergeant, his company attacked a strong point in the German lines and was forced to retire in disorder to a line of trenches in the rear where it was reorganized. The commanding officer was pleading for a return attack when Whitworth leaped out of the trench and led an attack which developed such ferocity that the objective was attained without the loss of a single American life.

So gallant was Whitworth's conduct in the attack that the colonel saluted him and asked his name.

"Sergeant Whitworth, sir," replied the man.

"You mean Lieutenant Whitworth," said the Colonel, who lost no time in recommending him for a commission. The appointment was received but because he was fearful he would have to remain overseas for several months longer, Whitworth declined to accept it. He was recommended for the distinguished service medal and Croix De Guerre but whether either was awarded him is not known.

HARRIS LOSES LAST

VESTIGE OF AUTHORITY

PHOENIX, Sept. 4.—According to the following telegram yesterday from the chief of the militia bureau there passes out of the hands of Colonel Harris the custodianship of the property of the war department in this state and Captain Ingalls who was appointed by Governor Campbell as successor to Colonel Harris is recognized as disbursing officer:

"In re 27th Inst., Captain Ingalls papers received yesterday, and he is recognized as National Guard Officer today and your resignation of him as Property and Disbursing Officer for Arizona is approved by Secretary of War. Amount of bond should be approximately one half of amount required at any one time plus \$10,000 additional to cover property responsibility and accountability. Bond form mailed today with full instructions.

"CARTER, Chief Militia Bureau."

It was learned a few days ago that the secretary of war had directed the issuance of the foregoing order by the chief of the militia bureau.

In the course of the reorganization of the National Guard, the secretary of war has authorized for this state the creation of a squadron of cavalry to consist of four troops of 65 men each and a battery of light artillery of 136 men and four guns. Under this authorization Governor Campbell yesterday directed Adjutant General Ingalls to proceed with the organization.

BIG PURSES UP FOR

STATE FAIR AUTO RACE CARD

PHOENIX, Sept. 4.—George Purdy Ballard, superintendent of auto races for the Arizona state fair received a wire today from Richard Genenderell, New York, national chairman of the contest board of the American automobile association of America giving full sanction for the auto races to be here the last day of the fair, November 8.

"All preliminary arrangements for automobile day have been completed," said Mr. Ballard. "The fair commission has set aside a liberal allowance for purses and now that the 3-A sanction has been obtained there is every assurance at this time that many speed demons will be here to contest for supremacy on the fastest dirt track in America."

COURT TAKES REST IN

DEPORTATION TRIALS

(Special to the Prospector)

DOUGLAS, Sept. 5.—Interesting but unsensational testimony was given by three more witnesses for the state. During the session yesterday afternoon, of the joint preliminary hearing in the cases of the two hundred Douglas and Bisbee men charged with kidnapping in connection with the deportations from the Warren district two years ago.

At the conclusion of the afternoon's session further hearings in the deportation cases were postponed until next Monday afternoon, to allow the court and attorney a breathing spell in which to look after other court matters. William Weitzenfeld, during completion of cross examination yesterday, admitted that he had been discharged recently from the Sacramento Mine because other miners had refused to go underground with him, because they considered him a "Wobblly." Weitzenfeld said his wife ran a boarding house in the Warren district during the strike and refused to serve men who refused to quit work when requested to do so by the I. W. W.

Mrs. Gertrude Bailey of Globe, who formerly operated a lodging house at Lowell told of having seen a dozen of the defendants during the deportations. Most of them, according to her testimony, were armed and seemed to be taking part in the activities. Mrs. Bailey admitted that her rooming house in Globe, the Mountain View, had been raided by Government officers several times during the last two years. On one occasion, Sept. 10, 1918, she admitted the U. S. Marshall at Globe raided the place at the time she was giving a dinner for former Governor G. W. P. Hunt. Quantities of I. W. W. literature and handbills were confiscated during these raids, admitted Mrs. Bailey, although she disclaimed any knowledge of its existence in the house.

Jim Hadsall, the last witness called by the state during the afternoon, told of having seen seventeen of the defendants on the day of the deportations. All but four, he admitted, had done nothing but "stand around" and take in the sights when he saw them and many of these men were unarmed, they seemed to be merely watching the proceedings, he said, and he had seen them arrest no one nor take any part in guarding the deported men.

WILCOX STARTS IM-

PROVEMENT OF STREETS

According to the Wilcox News the county is awakening to the necessity for street improvement. The News recounts the energy being put forth in that town in the following:

"Through the untiring efforts of Dr. B. E. Brisco the ball started rolling. Dr. Brisco offered his services during the entire time of the work to superintend the improvements and other citizens came forward with donations of money and work. The city council appropriated \$500 to help the matter along. H. A. Morgan furnished three teams and men free of charge. J. W. Angle furnished one team and man, so did Mr. Moyer. Other citizens donated work and money. The total work done to the present time represents at least \$1700 and the end is not in sight. This is an excellent beginning and will result in an awakening to street and public improvements, cleanliness and observance of sanitary regulations, as well as beautifying the town, which in time will entirely transform appearances."

FORMER SOLDIERS ARE NOT

EXEMPT FROM SCHOOL DRILL

PHOENIX, Sept. 4.—In spite of the fact that many young men now attending normal schools and high schools in the state have had service in the army, they are all going to be forced to take the military course required at such schools.

The question of exempting such boys who had been in the army, from the course was raised by C. O. Case, state superintendent of education. He asked Francis J. K. McBride, assistant attorney general for an opinion on the subject.

Mr. McBride holds there is no loop hole in the law creating the courses, through which the ex-soldiers may escape the military training.

THANKS FOR AID

TO ORPHANAGE

(From Friday's Daily)

Miss Helen Benedict is in receipt of and thanks to the women of Tombstone from the Board of Directors of the Arizona Children's Home Association, of Tucson for the kind donation of the Tombstone ladies, who used the proceeds of a recent ball to lend aid to the institution:

Miss Helen Benedict, Tombstone, Arizona.

My Dear Miss Benedict,

Please accept our thanks and our appreciation of the contents of two packages received through you from the women of Tombstone. The four dozen and three pillow slips and the eleven aprons contained in these packages will certainly be a splendid help to us in the carry on of the work. The things certainly are needed and we are very grateful to the women for their interest and very helpful support. Any time the ladies are in Tucson we will be glad to have them visit the Home. We have quite a house full at the present, ranging in age from seven months to twelve years.

Again thanking each and everyone for their splendid co-operation, we are

Very sincerely,

BOARD OF DIRECTORS,

ARIZONA CHILDREN'S HOME ASSOCIATION

By Mrs. Thos. R. Blair,

Secretary.

BLOODTHIRSTY BAND ATTACKS

AND KILL GRINGO AND SOLDIER

NOGALES, Sept. 5.—A. P. Hennessy an American truck driver, formerly employed in the immigration service at Nogales, Ariz., and four Mexican soldiers who were acting as an escort to a truck operated by the San Xavier Mining Company, were killed when a band of Yaqui Indians attacked the truck, which was carrying powder and supplies to the mine on Tuesday afternoon.

The attack occurred at Hila, between La Colorado and San Xavier, where the mine is located. Jose Arizola, a mechanic, who was with the truck men, managed to escape to the San Juanito ranch after he had been stripped of his clothing and badly beaten by the Indians. He gave the alarm. Before leaving the scene of the killings, he induced the Yaquis to abandon their plan of blowing up the truck with the 24 cases of powder. Upon leaving the truck, the Indians stripped it of all loose and available parts.

The San Xavier is a valuable silver property owned by C. Laughlin of Glendale, Cal. This is the first outbreak of the Yaquis in two months.

PROPER RESPECT FOR OLD

GLORY IN SCHOOLS OF STATE

PHOENIX, Sept. 5.—School children of Arizona hereafter will be taught proper respect for the American flag. This is made known in a new compilation of the school laws of Arizona by C. O. Case, superintendent of public instruction. The new publication is just off the press and is now being mailed to county superintendents with instruction to supply at least one copy to every school district in the state.

All the new amendments to the school law passed by the 1919 legislature are included in the publication together with general rules and regulations adopted by the state board of education. Under the latter are placed the regulations for showing proper respect to the flag.

SURVIVOR OF DUEL GETS PRE-

LIMINARY HEARING TODAY

BISBEE, Sept. 5.—Conrad Leake, who shot and killed Elmo E. Wilson following an alleged quarrel near Double Adobes two weeks ago, will be given his preliminary hearing this morning in Douglas before Justice W. F. Jack. Attorney Bruce Stephenson will appear for the defendant.

Leake's defense will be that he shot in self-defense only after Wilson attacked him with an axe. The man has been at liberty on a \$2,000 bail.

A statement made by Wilson before he died to the effect that he did not strike Leake until after a shot had been fired will probably be played in evidence by Sheriff James McDonald.

No coroner's inquest has as yet been held in the matter. A hearing set for a week ago was postponed until today.

PERICOPE WITH WHICH

FORMER CROWN PRINCE

DID HIS VERDUN FIGHTING

The former crown prince of Germany played the fighting game safe. Ask the old Point cadets about how near he was to the front at Verdun. Here is the giant pericope he used from a remote and safe position. An inscription on the plate reads: "Captured by the Third Division, Third Army Corps, at Montreuil before breaking up of their summer camp."

PUBLIC FORUM

Editor Prospector:

Having noticed in your paper that the Board of Supervisors in their attack upon the State Engineer, brought in the question of cost of supplies for the State camp. We feel in justice to all involved to answer their wrong statement by saying that we were awarded the contract for supplies after our competitive bids were accepted against all other bidders. We are sorry that the present board are ignorant of the advance in prices during the past two years. If the difference in the cost of building the fine highway from Benson crossing to Fairbank from Mr. Maddock's guess of \$20,000.00 to about \$27,000.00 was attributable to nothing but the cost of supplies, we would not bother to answer the letter published by the board of supervisors. We think and believe as everybody in Cochise county knows that the work was done under the most adverse circumstances due to the heavy storms that were continually hampering the workers and making so much repair work necessary during the construction of the highway. If the old survey along the old road to Fairbank had been followed and a poor road built perhaps Mr. Maddock's guess would have been right and no playing of politics would have cheated Cochise county out of State and Federal assistance for our roads.

Respectfully,
(Signed) Tombstone Com'l Co.
Fairbank Com'l Co.

CROOK FOREST ENLARGED

WASHINGTON D. C. Sept. 3.—The President has signed a proclamation adding 29,440 acres to the Crook National Forest, Arizona. The area added is located in the Winchester Mountains and is southeast of the Galiuro Division of the Crook Forest.

The lands added are rough and broken in character and are not suitable for agricultural purposes. Practically the entire tract is covered with a stand of oak, juniper, and cedar timber of fair quality. Much of the area along Pine Canyon is covered with a good stand of western yellow pine.

WOMEN IN PITCHED

BATTLE: COURT FINDS

BOTH ARE TO BLAME

BISBEE, Sept. 5.—A knock-down fight between Mrs. Ida May McCamly and Mrs. Sasie Laurimas, neighboring ranchers just over the divide near the Tombstone highway, ended in Justice Allison's court yesterday. Mrs. Laurimas was arraigned on the charge of assault but was released on the court's finding that the other woman was equally to blame.

According to the testimony, Mrs. McCamly came to the Laurimas ranch and threatened to "clean out the place" because the Laurimas couple had been talking about her. Harsh epithets were hurled which ended in Mrs. Laurimas knocking the woman down and threatening to kill her if she ever came on the ranch again according to the witness.

Mrs. Laurimas is the daughter of Bill Arnold, who furnished a sensation several years ago by a promiscuous shooting up of a road gang, killing one man and then ending his own life.

Attorney Jared Taylor, represented the defendant and Attorney Starr Williams the plaintiff.

STATE TO WAIVE RIGHTS

TO AID FLORENCE PROJECT

PHOENIX, Sept. 4.—The state of Arizona, through action taken by the state land department, will waive all rights of prior lien on lands coming under the Florence-Casa Grande reclamation project. A resolution authorizing the governor and secretary of state to make such waiver was adopted at a meeting of the state land board, following a conference of the members with John P. Reeves, special agent of the United States Indian Service.

Reeves was delegated to sign up lands under the project, and has met with remarkable success. The action taken by the state adds 2,800 acres to the project and makes unanimous the approval of the property owners to the government's plan.

This step was necessary, according to A. C. Selboeth, of the land department, to insure the government's final approval of the Florence diversion dam as the first unit in the system which calls for the impounding of the upper waters of the Gila by the construction of the San Carlos dam.

ARIZONA DISTRICT IN-

LEAD OF ALL OTHERS ON

BORDER FOR BIG EXPORTS

NOGALES, Sept. 5.—Statistics compiled by the collector of customs for the fiscal year of 1919 show that Arizona led all border districts in exports and imports with Nogales transacting more than half of the business credited to the Arizona district.

Following are the figures:
Districts Imports Exports
Arizona \$22,931,919 \$15,000,901
El Paso 2,024,396 6,700,513
San Antonio 17,283,933 32,021,426

The total of the border districts is as follows: exports, \$53,722,840. Arizona exported \$15,000,901 of this total.

Total imports, 42,911,157. Arizona imported \$22,931,919 of this. Arizona imported more than both San Antonio and El Paso districts together. The port of Nogales did more than half of all the business credited to the Arizona district.

LETTER OF APPRECIATION

Expressing their appreciation of the banquet tendered to the returned service men some time ago by Attorney O. Gibson of Tombstone, Four Post, No. 12, Tombstone branch of the American Legion yesterday caused the following letter of thanks to be mailed to Mr. Gibson:

Tombstone, Ariz., Sept. 3rd, 1919.
To Hon. O. Gibson,

Tombstone Arizona.
Sir: The members of Four Post No. 12 of the American Legion take this means of expressing their thanks to you in remembrance of the banquet tendered them upon their arrival home from the services of the Government. The memories of this occasion will long be remembered.

Respectfully and sincerely,
FOUR POST.

(Signed)
O. G. Bell, Post Commander.
Charles Schneider, Post Adjutant.

TO APPOINT NEW

COMMISSION TONIGHT

The board of supervisors were in

session today, the retiring highway commission having met with the board and discussed road matters in general about the county, also the roads completed and how building under contracts let by the commission.

The members of the new highway commission were to have been selected at the session today, but owing to the large volume of business on hand, this will be done at the night session tonight.

Attorney Harry E. Pickett, of Douglas, who it is understood was to be one of the members of the new commission, will not serve in that capacity, owing to private interests that are demanding his constant attention. It was rumored today that an appointment would also be made to fill the place of B. A. Packard, of Douglas, who is at present out of the state owing to illness, and will probably not return for several months.

It is expected, however, that the names of the new commissioners will be announced tomorrow.

On the 15th of the present month the new commission will meet with the old commission at their offices in Bisbee, when they will take over the affairs of that body.

EL-SOLDIER TO GET

CREDIT IN SCHOOL TRAINING

PHOENIX, Sept. 4.—Although no provision is made in Arizona's high school training law for exemption of discharged soldiers from military training, they may be given credit by the high school cadet commission for the work done in the army, according to an opinion rendered today by Assistant Attorney General F. J. K. McBride. McBride, who rendered the opinion in reply to an inquiry from C. O. Case, superintendent of public instruction, suggests that such high school students as have seen service in the army be appointed officers of high school cadet companies.

At the time Arizona's law providing for military training in the high schools was adopted, it was not contemplated, McBride says, that high school students would be taken into military service, and hence no provision was made to cover such cases. Under the provisions of the law, however, the normal and high school cadet commission has the power to assign the work to be done and to allow credits for the same. The commission is composed of the superintendent of public instruction, the adjutant general, and one citizen member.

TOMBSTONE VS. DOUGLAS

IN TENNIS GAMES SUNDAY

The Tombstone Tennis Club will have as their guests eight players from Douglas on Sunday, when some fast games will be played on the Bunker Hill and the Wynn courts. Among the visitors will be some women players who will be matched with local women. The Douglas players are considered among the first class and the local club is losing no time in preparing for the coming contest. The Tombstone Auto company has donated the service of several machines to take those who wish to see the games out to the courts free of charge and it is expected that a large crowd will be on hand to witness the go and lend a hand in entertaining the visitors. The autos will leave from Boyd's Drug store and will continue to make trips to the courts as long as there are any passengers who desire to attend, also returning all spectators after the games.

MINE ENGINEER FREED

WHITE SLAVE CHARGE

PRESCOTT, Sept. 5.—Charles Knowlton, well known hoisting engineer of Clarkdale, who was charged with white slavery, was acquitted by a United States jury.

Testimony showed and the defendant admitted that he had contributed to the support of Mrs. Thelma Dean and had helped her get from Los Angeles to Jerome, and that there had been intimacy between them. There was an absolute lack of any evidence to show an intent to exploit the young woman or any "commercial" feature to the case.

This is one of the first acquittals in a white slavery case in the U. S. court here for some time.
